We can conclude from this analysis that the general knowledge of students and teachers in most countries about the games and toys typical for each country has increased significantly. Some of the games were quite famous in all countries so the participants were already aware of them at the beginning of the project, but others were less known to the public. The participants were more knowledgeable in the questions concerning culture.

### **Questions 18 - 25 (Knowledge of Erasmus and Expectations)**

In this group of questions, the participants' responses showed a positive improvement, especially in making toys from waste materials, increasing their language skills and knowledge about Erasmus programs.
